

CT Universal MAP range

Target Market Information
March 2023

This document is designed to help advisers assess whether a specific fund from the CT Universal MAP range is a potentially suitable investment for their client. The document helps identify the type of client by a range of factors including knowledge, experience, capacity for loss, risk appetite and objective.

Product description – CT Universal MAP

Launched in 2017, our CT Universal MAP funds brought something new to the marketplace – access to a range of actively managed multi-asset funds at a low cost. The range is built to offer individuals a portfolio aligned with the level of risk and potential reward that's right for them. Each portfolio invests across a range of asset classes – the type and proportion tailored in each with a view to delivering defined investment outcomes.

- **Low-cost** – we are firm believers in the potential of active management but recognise the importance of controlling cost. Ongoing Charge Figures are capped at 0.29%.
- **Redefined value** – we aim to generate returns beyond those implementing a passive approach. Value extends to a comprehensive suite of support, including Adviser Edge.
- **Actively managed** – strategic and tactical asset allocation together with specialist asset class managers actively seeking out the best individual opportunities.
- **Multiple options** – five risk targeted portfolios ranging from Defensive to Adventurous together with an Income option.
- **Universal applications** – the role advisers play in helping people achieve their financial goals has never been more important – the funds are designed for deployment in a host of financial planning scenarios.

This is based on Columbia Threadneedle Investments opinion and does not take into consideration individual client circumstances

Section 1 – Assessing suitability

Key:

Yes		No		Neutral	
-----	---	----	---	---------	---

How much knowledge and investment experience does your client have?

Fund objective and policy

Fund name	CT Universal MAP Defensive
Investment objective	The Fund seeks to provide growth, combining capital and income, over the long term (at least 5 years) consistent with a defensive risk profile over the same time period.
Investment policy	<p>The Fund will gain exposure to a range of global asset classes.</p> <p>At any one time the Fund may be invested in any one or more of the following: collective investment schemes, equities, fixed income securities (government and non-government bonds), derivatives, money-market instruments, deposits, cash and near cash, real estate investment trusts and other transferable securities. The Fund may use derivatives for investment purposes as well as for efficient portfolio management.</p> <p>The Fund is actively managed and the investment manager is not constrained by any particular asset allocation in respect of geography, industry or sector. The collective investment schemes in which the Fund invests may include other schemes operated by the ACD. Typically, the Fund will maintain, in normal market conditions, an exposure to equities of between 10-50% of the value of the portfolio, which in the investment manager's view, is consistent with the Fund's aim to maintain a defensive risk profile.</p> <p>As the Fund is actively managed, the investment manager will determine the asset allocation exposures and ranges that are considered consistent with a defensive risk profile over at least a 5 year period. At the investment manager's discretion, particularly in times of market stress, the Fund may not maintain a defensive risk profile over shorter time periods.</p>

Fund objective and policy	
Fund name	CT Universal MAP Cautious
Investment objective	The Fund seeks to provide growth combining capital and income over the long term (at least 5 years) consistent with a cautious risk profile over the same time period.
Investment policy	<p>The Fund will gain exposure to a range of global asset classes.</p> <p>At any one time the Fund may be invested in any one or more of the following: shares, fixed income securities (government and non-government bonds), derivatives, money-market instruments, deposits, cash and near cash, real estate investment trusts, other transferable securities and collective investment schemes. The Fund may use derivatives for investment purposes as well as for efficient portfolio management.</p> <p>The Fund is actively managed and the investment manager is not constrained by any particular asset allocation in respect of geography, industry or sector. The collective investment schemes in which the Fund invests may include other schemes managed by Columbia Threadneedle Investments. Typically, the Fund will maintain, in normal market conditions, an exposure to shares of between 20% – 60% of the value of the portfolio, which in the investment manager's view, is consistent with the Fund's aim to maintain a cautious risk profile.</p> <p>As the Fund is actively managed, the investment manager will determine the asset allocation exposures and ranges which are considered consistent with a cautious risk profile over at least a 5 year period. At the investment manager's discretion, particularly in times of market stress, the Fund may not maintain a cautious risk profile over shorter periods of time.</p> <p>The Fund will gain exposure to a range of global asset classes.</p> <p>At any one time the Fund may be invested in any one or more of the following: shares, fixed income securities (government and non-government bonds), derivatives, money-market instruments, deposits, cash and near cash, real estate investment trusts, other transferable securities and collective investment schemes.
