What is this product?

Type

Columbia Threadneedle (Lux) I is a UCITS under European Directive 2009/65/EC. It is established as an investment company with variable capital ("société d'investissement à capital variable" or "SICAV") under the laws of Luxembourg.

Depository: Citibank Europe plc, Luxembourg branch. You can obtain further information about the Fund and the SICAV, its prospectus, latest annual reports and any subsequent half-yearly reports free of charge from the Manufacturer. These documents are available in English, French, German, Portuguese, Italian and Spanish. You can obtain other practical information, including current share prices, at www.columbiathreadneedle.com

Term

There is no fixed maturity date. An investor can hold their investment for any time period but minimum 3 year(s) is recommended. The Manufacturer can close the fund with notice.

Objectives

The Fund aims to provide income with the potential to grow the amount you invested over the medium term by investing in bonds globally that are considered to support or fund socially beneficial activities and development. To achieve this objective, the Fund invests at least 90% of its net assets in bonds (which are similar to a loan and pay a fixed or variable interest rate) issued by companies, governments, voluntary organisations and/or charities. The Fund will mainly invest in investment grade bonds but may invest up to 10% of its net assets in below investment grade bonds. Bonds rated as investment grade, as defined by international agencies that provide such ratings, are considered safer than lower rated bonds but typically pay a lower income. The Fund may invest up to 35% of its net assets in bonds from issuers in emerging market countries. The Fund may use derivatives (complex instruments) for hedging purposes and may also invest in asset classes and instruments different from those stated above. The fund manager only selects bonds that are rated as social investments under the Fund's Social Rating Methodology, and ensures that the issuers of these bonds follow good governance practices. The social outcomes of the investments are reviewed by a Social Advisory Panel (SAP). The SAP approves a social impact report which is prepared annually and made available to investors. The Fund excludes issuers that derive certain levels of revenue from industries or activities where the fund manager considers that they offer minimal social benefits or have a high risk of negative outcomes. However, an investment may be made in specific use of proceeds bonds (such as green, social or sustainability bonds) from an issuer that would otherwise be excluded under the criteria above. It also excludes issuers determined to have breached international standards and principles. The fund manager engages with issuers to better understand and positively influence their social value. Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. The fund manager uses its proactive engagement to assist with progressing this and may disinvest from those not meeting the minimum standards. The Fund is not managed in reference to a benchmark. The Bloomberg Global Aggregate Credit Index (USD Hedged) is used as a point of comparison against which the Fund's financial performance may be compared. The Fund is not subject to any constraints in relation to the comparator index, and as a result of the application of the Social Rating Methodology, is expected to exhibit significant deviation from the index. Further information on the Fund's investment guidelines and its sustainable investment objective is available in the Social Investment Guidelines and the SFDR RTS Annex of the Prospectus, both available at www.columbiathreadneedle.com. The Fund is considered to fall within the scope of Article 9 of SFDR.

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. You can find more detail on the investment objective and policy of the Fund in the prospectus. For more information on investment terms used in this document, please see the Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This fund is aimed at Retail and Professional customers and Eligible Counterparties who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and the possibility of some capital growth by investing in fixed income securities that are considered to provide positive social outcomes by supporting or funding socially beneficial activities and development, who can invest their money for at least 3 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in fixed income securities which tend to have a higher risk profile than money market securities due to higher company specific credit and interest rate risk but a lower risk profile than equity markets.

RISK INDICATOR

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a low-medium risk class.

This rates the potential losses from future performance at a low-medium level, and poor market conditions are unlikely to impact our capacity to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 12/2020 to 10/2023

Moderate scenario: This type of scenario occurred for an investment between 07/2015 to 07/2018

Favourable scenario: This type of scenario occurred for an investment between 07/2018 to 07/2021

Investment USD 10,000			
Scenarios		If you exit after 1 year	If you exit after 3 years (Recommended Holding Period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

In case of default of the Manufacturer, the investor may face a financial loss. That loss would not be covered by an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Investment USD 10,000	if you exit in after 1 year	if you exit in after 3 years (Recommended Holding Period)
Total costs	554.00 USD	719.00 USD
Annual Cost impact*	5.54%	2.29%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.06% before costs and -1.23% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs
