PRODUCT SUITABILITY			
WHO IS THE PRODUCT SUITABLE FOR? The Portfolio is <u>only</u> suitable for investors who: <ul style="list-style-type: none"> • seek capital appreciation; • seek investment exposure to the US equity market; • <u>seek an investment that promotes environmental and social characteristics</u>; • can tolerate potentially high volatility in the value of their investment; • have a high level of risk tolerance commensurate with an investment in equity securities; and • have a long-term investment time horizon. You should consult your financial adviser if in doubt whether this product is suitable for you.			<u>Further Information</u> Refer to "Investor Profile" of the Singapore Prospectus for further information on product suitability.
KEY PRODUCT FEATURES			
WHAT ARE YOU INVESTING IN? <ul style="list-style-type: none"> • You are investing in a collective investment scheme that is a sub-fund of the Luxembourg incorporated SICAV Columbia Threadneedle (Lux) I (formerly known as Threadneedle (Lux)), which seeks to achieve long term capital appreciation by investing principally in equity securities of large cap US companies. • The distribution policies of the Share Classes are as follows: Share Classes whose denomination ends in a "P" or "C": Dividend, if declared, will be distributed. Dividends may include an element of capital which will have an impact on capital appreciation. The payment of dividends will result in an immediate decrease in the net asset value per share regardless of whether or not they are paid out of capital. Other Share Classes: No dividend distribution. Income, if any, will be re-invested. 			Refer to "The SICAV", "The Portfolios", "Investment Objective, Focus and Approach", and "Distribution Policy" of the Singapore Prospectus for further information on features of the product.
Investment Strategy			

¹ The Singapore Prospectus is available for collection during normal Singapore business hours from Singapore distributors for the Portfolio or accessible at www.columbiathreadneedle.sg.

<ul style="list-style-type: none"> • The Portfolio will invest principally in the equity securities of large cap companies (generally over USD 2 billion in market capitalisation, as at time of purchase) listed, domiciled, or conducting a significant part of their business in the United States. • The Sub-Advisor will take a contrarian approach and will specifically target stocks it believes are undervalued by the market. • For the purposes of managing liquidity, the Portfolio may hold ancillary liquid assets (i.e. bank deposits at sight), and may also hold bank deposits, Money Market Instruments or money market funds for treasury purposes. In normal market conditions, investments in these assets or instruments will not exceed 10% of the Portfolio's Net Asset Value. • The Portfolio is actively managed in reference to the S&P 500 Index. Deviations from the index, including guidance on the level of risk relative to the index, will be considered as part of the Sub Advisor's risk monitoring process. • The Portfolio may use derivatives for investment purposes, hedging and efficient portfolio management. • Hedging between the currency of the Class and the base currency of the Portfolio will be carried out for Classes whose denomination ends in a "H" or "C". These Classes will be hedged, with the objective of minimising currency risk exposure. This activity may increase or decrease the return to investors in those Classes. 	<p>Refer to "Investment Objective, Focus and Approach" of the Singapore Prospectus for further information on the investment strategy.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The umbrella fund under which the Portfolio is constituted is Columbia Threadneedle (Lux) I (the "SICAV"). • The Management Company of the SICAV is Threadneedle Management Luxembourg S.A.. • The Sub-Advisor of the Portfolio is Columbia Management Investment Advisers, LLC. • The Depositary for the SICAV is Citibank Europe plc, Luxembourg Branch. 	<p>Refer to "The SICAV", "Management and Administration" and "Other Parties" of the Singapore Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT</p> <p>The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:</p>	<p>Refer to "Risk Factors" of the Singapore Prospectus for further information on the risk of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • General market risks. The value of investments may fall as well as rise and you may not get back the sum originally invested, especially if investments are not held for the long term. • Market risks in the United States. Your investments may go up or down due to changing economic, political or market conditions that impact the share price of the companies that the Portfolio invests in. You should also note that the geographic concentration of the Portfolio may add more volatility to the Portfolio than a more broadly diversified portfolio. • Exchange rate risks. Where investments are made by the Portfolio in assets that are denominated in currencies other than USD (the base currency of the Portfolio), changes in exchange rates may affect the value of your investments. The Portfolio and share class offered may not be denominated in SGD and you may therefore be exposed to additional exchange rate risks if your reference currency is SGD. 	
Liquidity Risks	
<ul style="list-style-type: none"> • The Portfolio is not listed in Singapore and you can redeem only on Valuation Dates (subject to the opening hours of the Singapore distributors). There is no secondary market for the Portfolio in Singapore. All redemption requests should be submitted in the manner set out in the Singapore Prospectus. • Your right to request for redemption may be suspended or deferred in certain circumstances. 	
Product-Specific Risks	
<ul style="list-style-type: none"> • Derivatives risks. The use of derivatives by the Portfolio may increase the volatility of the Portfolio and may involve a small investment of cash relative to the magnitude of risk assumed. In addition, these techniques could result in a loss if the counterparty of the transaction does not perform as promised. If the Management Company or the Sub-Advisor judges market conditions incorrectly or employs a strategy that does not correlate well with the Portfolio's investments, these techniques could result in a loss. • ESG Investment Criteria risks. The Portfolio applies a range of measures as part of its consideration of environmental, social or governance factors, including the exclusion of investments involved in certain industries and/or activities. This reduces the investable universe, and may impact the performance of the Portfolio positively or negatively relative to a benchmark or other funds without such restrictions. • Sustainability risks. The Portfolio is potentially exposed to environmental, social or governance events or conditions that, if occurring, could cause a material negative impact on the value of the Portfolio's investment. • Volatility risks. The Portfolio may exhibit significant price volatility.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

Valuations are performed on each Valuation Date. The indicative issue prices and redemption prices of the shares of the Portfolio are normally published in Singapore on www.columbiathreadneedle.sg within 1 Singapore business day immediately succeeding each Valuation Date.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COST IN DOING SO?

- The Management Company does not offer a right to cancel subscriptions into the Portfolio. You should however check whether your Singapore distributor will allow you to cancel your subscription into the Portfolio.
- You can exit the Portfolio by submitting your redemption form to the Singapore distributor from whom you had originally purchased your shares.
- Shares may be redeemed on any Valuation Date, subject to the opening hours of the relevant Singapore distributor.
- Redemption proceeds will normally be made to Singapore distributors within 3 Business Days and you should check with your Singapore distributor when you can expect to receive your redemption proceeds.
- The redemption price of your shares is determined as follows:
 - If you sell your shares before 3 p.m. (Luxembourg time) (or the Singapore time equivalent) on a Valuation Date, you should normally receive a price calculated on that Valuation Date.
 - If you sell your shares after 3 p.m. (Luxembourg time) (or the Singapore time equivalent) on a Valuation Date, you should normally receive a price calculated on the next Valuation Date.
 (Please note that certain Singapore distributors may impose an earlier cut-off time for receiving your redemption request.)
- The redemption proceeds that you will receive will be the redemption price per share multiplied by the number of shares redeemed, less any charges. An example is as follows:

1,000 shares	x	\$1.10	=	\$1,100	-	\$0	=	\$1,100
Redemption request		Redemption Price		Gross Redemption Proceeds		Redemption Charge*		Net Redemption Proceeds

*There is currently no redemption charge payable.

Refer to "Cancellation of Subscription", "Redemption of Shares" and "Obtaining Price Information in Singapore" of the Singapore Prospectus for further information on valuation and exiting from the product.

² Your financial adviser is required to disclose to you the amount of trailer fee it receives from the Management Company.
