Columbia Threadneedle Investment Funds (UK) ICVC			
CT American Fund	2 October 2023	<p>Investment objective & policy change:</p> <p>The Fund aims to increase the value of your investment over the long term. It looks to outperform the S&P 500 Index over rolling 3- year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in shares of American (US) companies.</p> <p>The Fund selects companies considered to have good prospects for share price growth, from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on larger companies, such as those included in the S&P 500 Index.</p> <p>The S&P 500 Index represents around 500 of the largest US listed companies. It provides a suitable target benchmark against which Fund performance will be measured and evaluated over time.</p> <p>The Fund typically invests in fewer than 80 companies, which may include shares of some companies not within the Index. The Fund may also invest in other assets such as cash and deposits, and hold other funds (including funds managed by Columbia Threadneedle companies) when deemed appropriate.</p> <p>The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.</p>	<p>Investment objective & policy change:</p> <p>The Fund aims to achieve investment growth over the long term (5 years, or more). It also looks to outperform the S&P 500 Index (the "Index") over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in shares of companies domiciled in the United States of America (US), or which have significant US business operations. There is no restriction on size, but investment tends to focus on larger companies.</p> <p>The Index represents around 500 of the largest companies listed on the New York Stock Exchange or NASDAQ and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time.</p> <p>The Investment Manager selects companies considered to have good prospects for share price growth across different sectors, and typically invests in fewer than 80 companies, including some companies not within the Index.</p> <p>The Investment Manager also seeks to create a portfolio that compares favourably against the Index over rolling 12-month periods, when assessed using the Columbia Threadneedle ESG Materiality Rating model.</p> <p>This model (developed and owned by Columbia Threadneedle Investments) analyses company data to assess how effectively material environmental, social and governance (ESG) risks and opportunities are being managed. If sufficient data is available, the combined results are expressed as a numerical rating to indicate how much exposure a company has to material ESG risks and opportunities in a particular industry.</p> <p>Whilst the Fund may still invest in companies that have poor ESG Materiality ratings, at least 50% of the portfolio is invested in companies with strong ratings.</p> <p>The Investment Manager engages with companies with a view to influencing management teams to address material ESG risks and improve their ESG practices.</p> <p>Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. As such, the Investment Manager will proactively engage with companies to assist with progressing this and may disinvest from those not meeting the minimum standards.</p> <p>The Fund only invests in companies that follow good governance practices. It does not invest in companies which derive revenue from industries or activities above the thresholds shown: tobacco production (5%); nuclear weapons – indirect involvement (5%), conventional weapons – military, or civilian firearms (10%), and thermal coal – extraction or power generation (30%), providing a company is not engaged in new coal projects.</p> <p>The Fund excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles.</p> <p>The Fund may invest in other securities, collective investment schemes (including funds managed by Columbia Threadneedle companies), money market instruments, deposits, and cash. Derivatives may only be held with the aim of reducing risk or managing the Fund more efficiently.</p>

CT American Select Fund	2 October 2023	<p>Investment objective & policy change:</p> <p>The Fund aims to increase the value of your investment over the long term. It currently looks to outperform the S&P 500 Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in a concentrated portfolio of shares of American (US) companies.</p> <p>The Fund selects companies in which the fund manager has a high conviction that the current share price does not reflect the prospects for that business. These companies may be chosen from within any industry or economic sector, with significant sector and share weightings taken at the discretion of the fund manager. There is no restriction on company size, however, investment tends to focus on larger companies, such as those included in the S&P 500 Index.</p> <p>The S&P 500 Index is regarded as an appropriate performance measure of the US stock market, with around 500 of the largest US listed companies currently included. It provides a suitable target benchmark against which the performance of the Fund can be measured and evaluated over time.</p> <p>The Fund typically invests in fewer than 60 companies, which may include shares of some companies not within the Index. The Fund may also invest in other assets such as cash and deposits, and on occasion hold other funds (including funds managed by Columbia Threadneedle companies).</p> <p>The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.</p>	<p>Investment objective & policy change:</p> <p>The Fund aims to achieve investment growth over the long term (5 years, or more). CT Strategic Bond Fund	4 July 2022	Name Change: Strategic Bond Fund	Name Change: CT Strategic Bond Fund
	7 August 2019	<p>Investment objective and policy change:</p> <p>To achieve total return principally by way of income. Income will be paid monthly.</p> <p>The ACD's investment policy is to primarily invest the assets of the Fund directly or indirectly in UK and European debt securities.</p> <p>The ACD's strategic investment approach allocates the Fund's investments between corporate investment grade and non-investment grade, sovereign and supranational debt. The ACD may invest up to one third of the assets of the Fund in money market instruments, cash or near cash and other securities (other than equities) including non UK and non-European debt. The ACD may invest in derivatives and forward transactions. The ACD may take long and short positions through derivatives. Where securities are non-Sterling denominated it is intended that they will typically be hedged back into Sterling.</p> <p>Use of Derivatives and Forward Transactions The Fund uses derivatives and forward transactions for both EPM and investment purposes including short selling and leverage. The use of derivatives and forward transactions for EPM will not increase the risk profile of the Fund. The use of derivatives for investment purposes may increase the risk profile of the Fund.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to provide income with the prospect of some capital growth over the long term (5 years or more).</p> <p>The Fund is actively managed, and invests at least two-thirds of its assets in bonds denominated in sterling (GBP) or euro (EUR). In addition to GBP or EUR denominated bonds, the Fund may invest in bonds priced in other currencies, however all non-sterling bonds are usually hedged back to sterling.</p> <p>The Fund follows a strategic investment approach, allowing for changes to allocation between investment grade and below investment grade corporate bonds, as well as investment in government bonds and bonds issued by international organisations. This approach aims to position the Fund to take advantage of those areas of the bond market that are considered to offer the best return potential.</p> <p>Derivatives (including forward transactions) may be used for investment purposes. This includes allowing the Fund to profit from the fall in the price of an asset (shorting), as well as extending market exposure beyond the value of its assets (leverage). In addition, derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.</p> <p>The Fund may also invest in other securities, as well as collective investment schemes (including funds managed by Columbia Threadneedle companies), and hold money market instruments, deposits, cash and near cash.</p> <p>Other Information: The following benchmarks are currently used as a point of reference against which the Fund's performance may be compared:</p> <p>Peer Group: Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). CT UK Fund	2 October 2023	<p>Investment objective and policy change:</p> <p>The Fund aims to increase the value of your investment over the long term. It looks to outperform the FTSE All-Share Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 90% of its assets in shares of companies listed on the London Stock Exchange; predominantly UK companies.</p> <p>The Fund selects companies that are considered to have good prospects for share price growth, from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on the larger companies included in the FTSE All-Share Index.</p> <p>The FTSE All-Share Index is regarded as an appropriate performance measure of the UK stock market, with over 600 companies currently included. It provides a suitable target benchmark against which Fund performance will be measured and evaluated over time.</p> <p>The Fund typically invests in fewer than 80 companies, which may include shares of some companies not within the Index. The Fund may also invest in other assets such as cash and deposits, and hold other funds (including funds managed by Columbia Threadneedle companies) when deemed appropriate.</p> <p>The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently. Derivatives are sophisticated investment instruments linked to the rise and fall of the price of other assets.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve investment growth over the long term (5 years, or more). It also looks to outperform the FTSE All-Share Index (the "Index") over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 90% of its assets in shares of companies listed on the London Stock Exchange; predominantly companies domiciled in the UK, or which have significant UK business operations. There is no restriction on size, but investment tends to focus on the larger companies.</p> <p>The Index is regarded as an appropriate performance measure of the UK stock market, with over 600 companies currently included, and provides a suitable target benchmark against which Fund performance will be evaluated over time.</p> <p>The Investment Manager selects companies considered to have good prospects for share price growth across different sectors, and typically invests in fewer than 80 companies, including some companies not within the Index.</p> <p>The Investment Manager also seeks to create a portfolio that compares favourably against the Index over rolling 12-month periods, when assessed using the Columbia Threadneedle ESG Materiality Rating model.</p> <p>This model (developed and owned by Columbia Threadneedle Investments) analyses company data to assess how effectively material environmental, social and governance (ESG) risks and opportunities are being managed. If sufficient data is available, the combined results are expressed as a numerical rating to indicate how much exposure a company has to material ESG risks and opportunities in a particular industry.</p> <p>Whilst the Fund may still invest in companies that have poor ESG Materiality ratings, at least 50% of the portfolio is invested in companies with strong ratings.</p> <p>The Investment Manager engages with companies with a view to influencing management teams to address material ESG risks and improve their ESG practices.</p> <p>Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. As such, the Investment Manager will proactively engage with companies to assist with progressing this and may disinvest from those not meeting the minimum standards.</p> <p>The Fund only invests in companies that follow good governance practices. It does not invest in companies which derive revenue from industries or activities above the thresholds shown: tobacco production (5%); nuclear weapons – indirect involvement (5%), conventional weapons – military, or civilian firearms (10%), and thermal coal – extraction or power generation (30%), providing a company is not engaged in new coal projects.</p> <p>The Fund excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles.</p> <p>The Fund may invest in other securities, collective investment schemes (including funds managed by Columbia Threadneedle companies), money market instruments, deposits, and cash. Derivatives may only be held with the aim of reducing risk or managing the Fund more efficiently.</p>

Columbia Threadneedle Investment Funds (UK) ICVC; Columbia Threadneedle Specialist Funds (UK) ICVC; Columbia Threadneedle Opportunity Funds (UK) ICVC

with the aim of reducing risk or managing the Fund more efficiently.

Other Information:

The following benchmarks are currently used as a point of reference against which the Fund's performance may be compared:

Peer Group: Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). The Fund is currently included in the IA £ Corporate Bond sector.

Index: The iBoxx Sterling Non-Gilts Index is regarded as an appropriate performance measure of sterling-denominated investment grade bonds (including corporate, government and government agencies) issued worldwide, but excluding bonds issued by the UK government (gilts).

The Investment Manager also seeks to create a portfolio that compares favourably against the Index over rolling 12-month periods, when assessed using the Columbia Threadneedle ESG Materiality Rating model.

This model (developed and owned by Columbia Threadneedle Investments) analyses company data to assess how effectively material environmental, social and governance (ESG) risks and opportunities are being managed. Provided sufficient data is available, the results are combined and expressed as a numerical ESG Materiality rating to indicate how well a company is managing those risks and opportunities relative to its industry peers.

Whilst the Fund may still invest in bonds issued by companies that have poor ESG Materiality ratings, at least 50% of the portfolio is invested in bonds issued by companies with strong ratings, which is also expected to lead to a better weighted average ESG Materiality rating for the Fund than the Index.

In line with its engagement policy, the Investment Manager engages with companies with a view to influencing management teams to address material ESG risks and improve their ESG practices ranging from climate change to board independence and diversity.

The Fund only invests in bonds issued by companies that follow good governance practices. The Fund does not invest in bonds issued by companies which derive revenue from industries or activities above the thresholds shown: tobacco production (5%); nuclear weapons – indirect involvement (5%), conventional weapons – military, or civilian firearms (10%), and thermal coal – extraction or power generation (30%). These exclusion criteria may be extended or revised from time to time.

The Fund also excludes companies that have any direct involvement in nuclear weapons, controversial weapons or that fail international standards and principles such as the:

- United Nations Global Compact;
- International Labour Organisation Labour Standards; and
- United Nations Guiding Principles on Business and Human Rights.

The Fund may invest in other securities as well as collective investment schemes (including funds managed by Columbia Threadneedle companies), and hold money market instruments, deposits, cash and near cash.

The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.

Other Information

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). The Fund is currently included in the IA £ Corporate Bond sector. Performance data on funds within this sector may be used when evaluating the performance of this Fund.

CT UK Sustainable Equity Fund	24 March 2025	<p>Investment objective and policy update reflecting the adoption of the SDR Sustainability Investment Label 'Sustainability Focus' and the additional sustainability-related disclosures required under the SDR regime:</p> <p>The Fund aims to achieve a return over the long term (5 years or more) consisting of investment growth and some income, achieved through investment in companies that are positively exposed to sustainable themes through their products and services, as well as those with strong or improving environmental, social and governance (ESG) characteristics.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in shares of companies domiciled in the UK, or which have significant UK business operations.</p> <p>The Fund focusses on selecting companies delivering sustainable outcomes or progressing towards the delivery of sustainable outcomes, as outlined in the Fund's Sustainable Investment Guidelines, available on our website or upon request. Those companies will offer products and services aligned to the Fund's sustainable themes, or demonstrate leadership on sustainability issues through strong ESG practices.</p> <p>On occasion, the Fund may invest in other securities and collective investment schemes (including funds managed by Columbia Threadneedle companies) and may hold money market instruments, deposits, cash and near cash.</p> <p>The Fund is not permitted to invest in derivatives for investment purposes, but they may be held with the aim of reducing risk or managing the Fund more efficiently.</p> <p>Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. As such, the Investment Manager will proactively engage with companies to assist with progressing this and may disinvest from those not meeting the minimum standards.</p> <p>The Fund does not invest in companies whose primary business is the exploration, production and commercialisation of fossil fuels, that derive over 5% revenue from thermal coal mining, or that are involved in the new development of thermal coal extraction or power generation facilities. However, the Investment Manager may invest in companies that do not satisfy this exclusion criteria if it can evidence that these companies are, for example, phasing out their fossil fuel exposure and have strong climate transition plans underpinned by robust emissions reduction targets.</p>	<p>Investment objective and policy update reflecting the adoption of the SDR Sustainability Investment Label 'Sustainability Focus' and the additional sustainability-related disclosures required under the SDR regime:</p> <p>Financial Objective: The Fund aims to achieve a return over the long term (5 years or more) consisting of capital growth and some income.</p> <p>Sustainability Objective: The Fund also seeks to address the sustainability challenges facing people and the environment by investing in companies that provide solutions aligned with the Fund's 7 "Sustainability Themes": Energy Transition, Resource Efficiency, Sustainable Infrastructure, Sustainable Finance, Societal Development, Health and Wellbeing, Technological Innovation & Inclusion.</p> <p>The Fund is actively managed. In pursuit of its Sustainability Objective, at least 75% of the Fund's assets are invested in shares of UK companies whose products or services provide solutions to environmental or social challenges in line with its Sustainability Themes, subject to the "Sustainable Investment Criteria". In accordance with the Sustainable Investment Criteria, we:</p> <ol style="list-style-type: none"> (1) Assess and select companies for investment using the Columbia Threadneedle Investments Standard of Sustainability (the "Standard"), which ensures that environmental or social solutions being provided by companies not only align with the Sustainability Themes but are a material driver of their business i.e. 50% or more of their total net revenue is generated in this way (net means subtracting any revenues that are negatively aligned to the Themes from those that are positively aligned). (2) Exclude companies if their activities are considered harmful to the environment or society, and therefore conflict with the Sustainability Objective, including companies with significant exposure (based on revenues) to weapons, tobacco, gambling, adult entertainment, fossil fuels, or companies breaching international standards of business conduct. <p>Further details about the Standard and exclusions can be found in the prospectus available on our website: www.columbiathreadneedle.com</p> <p>The Fund is also permitted to invest up to 25% in the following assets that do not pursue the Sustainability Objective: investments that have sustainability characteristics but don't currently meet the Standard; other assets including bonds, funds (including those managed by Columbia Threadneedle companies), money market instruments, deposits, and cash, for the purpose of liquidity and risk management.</p> <p>The Fund may only use derivatives with the aim of reducing risk or managing the Fund more efficiently.</p> <p>We seek to engage with companies to better understand how they are providing solutions to sustainability challenges aligned with the Sustainability Themes, and to encourage better management of environmental, social and governance (ESG) issues.</p> <p>The Fund has committed to an ambition to reach net zero emissions by 2050 or sooner, using stewardship to encourage companies to align to a net zero future.</p>
	2 October 2023	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve a return over the long term, consisting of investment growth and some income, achieved through investment in companies that are positively exposed to sustainable themes through their products and services, as well as those with strong or improving environmental, social and governance</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve a return over the long term (5 years or more) consisting of investment growth and some income, achieved through investment in companies that are positively exposed to sustainable themes through their products and services, as well as those with strong or improving environmental, social and governance (ESG) characteristics.</p>

	7 August 2019	<p>Investment objective and policy change:</p> <p>To achieve a high and growing income over the long term combined with prospects for capital growth.</p> <p>The ACD's investment policy is to invest no less than two-thirds of the gross assets of the Fund in global equities. Income will be in the form of dividend distribution.</p> <p>If the ACD considers it desirable it may further invest up to one third of the total assets of the Fund in derivatives, forward transactions and other securities (including fixed interest securities and money market securities) deposits and cash.</p> <p>The Global Equity Income Fund currently uses derivatives for efficient portfolio management purposes only; however, the policy allows the use of derivatives for investment purposes in the future. Shareholders will be given 60 days' prior written notice of any proposal to use derivatives for investment purposes and the Prospectus will be updated accordingly. The use of derivatives for efficient portfolio management is not intended to materially change the risk profile of the Fund.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to provide income combined with prospects for capital growth over the long term. It looks to provide an income yield higher than the MSCI ACWI Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in the shares of companies worldwide.</p> <p>The Fund selects companies that exhibit above average income generation potential, as well as those considered to offer opportunities more by way of share price or dividend growth. These companies may be chosen from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on larger companies, such as those included in the MSCI ACWI Index.</p> <p>The MSCI ACWI Index is regarded as providing an appropriate representation of the share performance of large and medium-sized companies worldwide, with more than 2,700 companies currently included. The income yield of this index provides a suitable target benchmark against which the level of income generated by the Fund will be measured and evaluated over time.</p> <p>The Fund will typically invest in fewer than 90 companies, which may include shares of some companies not within the MSCI ACWI Index. The Fund may invest in other securities (including fixed interest securities) and collective investment schemes (including funds managed by Columbia Threadneedle companies), when deemed appropriate.</p> <p>The Fund may also hold money market instruments, deposits, cash and near cash.</p> <p>The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently. In addition, the Fund may commence using derivatives with the aim of achieving an investment gain, providing 60 days' notice is given to shareholders.</p> <p>Other Information: The following benchmarks are currently used as a point of reference against which the Fund's performance may be compared:</p> <p>Peer Group: Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). This Fund is currently included in the IA Global Equity Income sector. Performance data on funds within this sector may be used when evaluating the performance of this Fund.</p> <p>Index: The MSCI ACWI Index provides a benchmark against which overall performance of the Fund can be evaluated.</p>

CT Global Extended Alpha Fund	4 July 2022	Name Change: Global Extended Alpha Fund	Name Change: CT Global Extended Alpha Fund
	1 January 2020		Change in fees: Discontinuation of Performance Fees from 1 Jan 2020.
	1 February 2020		Change in fees: Reduction of AMC on A and P share classes to bring in line with the other non-Performance Fee paying share classes.
	7 August 2019	<p>Investment objective and policy change:</p> <p>To achieve above average capital growth.</p> <p>The ACD's investment policy is to actively manage an exposure by investing directly or indirectly into equity securities worldwide, including companies located in developed and emerging markets. Exposure to these markets may be gained through both long and short positions.</p> <p>The ACD may invest in equities, derivatives, forward transactions and collective investment schemes. The ACD may also invest in other securities (including fixed interest securities and money market securities), deposits and cash.</p> <p>In order to gain short exposure, the ACD will invest in derivatives. The ACD may also invest in derivatives to gain long exposure.</p> <p>It is expected that the Investment Manager will obtain part of its long and short exposure by investing in a single total return swap entered into with a counterparty, where the return is linked to the performance of a portfolio of actively managed investments. These investments will consist mainly of equity-related securities, exchange-traded funds and equity index positions and will be selected by the Investment Manager at its sole and entire discretion.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve above average capital growth over the long term. It looks to outperform the MSCI ACWI Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and seeks to gain at least 75% of its investment exposure to shares of companies worldwide.</p> <p>This exposure to company shares is achieved by taking both long and short equity positions. Long positions are taken by investing in company shares directly, as well as indirectly using derivatives, and collective investment schemes (including funds managed by Columbia Threadneedle companies) when considered appropriate. Short positions are taken using derivatives only. Typically, the combination of these positions provides exposure to fewer than 140 companies.</p> <p>The Fund follows an "equity extension strategy", which allows proceeds from short positions to be used to extend long positions within the portfolio, to include more of the fund manager's strongest investment ideas. However, the Fund does not usually short more than 30% of its value, and long positions don't normally exceed 130% of the value of the Fund.</p> <p>The Fund's extended long and short positions are usually, at least in part, obtained by investing in a single total return swap, with a counterparty. This swap, which is a type of derivative instrument, provides a return linked to the performance of a basket of mainly equity-related securities, exchange traded funds and equity index positions, selected by the fund manager.</p> <p>The Fund may also hold other securities (including fixed interest securities), money market instruments, deposits, cash and near cash. These holdings may be substantial where necessary to provide cover for the exposure created using derivatives, or when considered appropriate towards achieving the Fund's investment objective. In addition to using derivatives for investment purposes, derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.</p> <p>The MSCI ACWI Index is regarded as providing an appropriate representation of the share performance of large and medium-sized companies worldwide, currently with more than 2,700 companies included. It is representative of the type of companies in which the Fund invests and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time.</p> <p>Other Information:</p> <p>Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). This Fund is classified in the IA Global sector. Performance data on funds within this sector may be used when evaluating the performance of this Fund.</p>

CT UK Mid 250 Fund	4 July 2022	Name Change: UK Mid 250 Fund	Name Change: CT UK Mid 250 Fund
	7 August 2019	<p>Investment objective and policy change:</p> <p>To achieve capital growth from a portfolio of UK 'mid cap' equities.</p> <p>The ACD's investment policy is to invest the assets of the Fund primarily in a selection of medium sized companies which are constituents of the FTSE 250 (ex Investment Trusts) Index.</p> <p>If the ACD considers it desirable, it may also invest in companies which are not included in that index, and may hold cash and/or money market instruments.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve capital growth over the long term. It looks to outperform the FTSE 250 ex Investment Trusts Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 90% of its assets in shares of companies listed on the London Stock Exchange; predominantly companies domiciled in the UK, or which have significant UK business operations.</p> <p>The Fund selects companies considered to have good prospects for share price growth, from any industry or economic sector, focusing on companies included within the FTSE 250 ex Investment Trusts Index.</p> <p>The FTSE 250 ex Investment Trusts Index currently comprises approximately 200 companies (excluding Investment Trusts) listed on the London Stock Exchange and is regarded as an appropriate performance measure of medium sized UK companies. It provides a suitable target benchmark against which the Fund performance will be measured and evaluated over time.</p> <p>The Fund is relatively concentrated, and typically invests in fewer than 55 companies, which may include shares of some companies not within the Index. The Fund may invest in other securities (including fixed interest securities) and collective investment schemes, when deemed appropriate.</p> <p>The Fund may also hold money market instruments, deposits, cash and near cash.</p> <p>The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.</p> <p>Other Information: Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). This Fund is classified in the IA UK All Companies sector. Performance data on funds may be used when evaluating the performance of this Fund.</p>

CT US Equity Income Fund	4 July 2022	Name Change: US Equity Income Fund	Name Change: CT US Equity Income Fund
	7 August 2019	<p>Investment objective and policy change:</p> <p>The objective of the Fund is to achieve a high level of income combined with the potential for long-term capital growth.</p> <p>The Fund will invest principally in a portfolio of US equities, unconstrained by company size or sector classification.</p> <p>The ACD will look to invest in companies that exhibit a high potential for paying above average income.</p> <p>The Fund may also invest in other transferable securities, collective investment schemes, money market instruments, deposits, and cash and near cash when deemed appropriate.</p> <p>The US Equity Income Fund currently uses derivatives for efficient portfolio management purposes only; however, the policy allows the use of derivatives for investment purposes in the future. Shareholders will be given 60 days' prior written notice of any proposal to use derivatives for investment purposes.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to provide income combined with prospects for capital growth over the long term. It looks to provide an income yield higher than the S&P 500 Index over rolling 3-year periods, after the deduction of charges.</p> <p>The Fund is actively managed, and invests at least 75% of its assets in the shares of companies domiciled in the United States of America (US), or which have significant US business operations.</p> <p>The Fund selects companies that exhibit above average income generation potential, as well as those considered to offer opportunities more by way of share price or dividend growth. These companies may be chosen from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on larger companies, such as those included in the S&P 500 Index.</p> <p>The S&P 500 Index is a US stock market index, the constituents of which represent around 500 of the largest companies listed on the New York Stock Exchange or NASDAQ. The income yield of this index provides a suitable target benchmark against which the level of income generated by the Fund will be measured and evaluated over time.</p> <p>The Fund typically invests in fewer than 70 companies, which may include shares of some companies not within the Index. The Fund may invest in other securities (including fixed interest securities) and collective investment schemes (including funds managed by Columbia Threadneedle companies), when deemed appropriate.</p> <p>The Fund may also hold money market instruments, deposits, cash and near cash.</p> <p>The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently. In addition, the Fund may commence using derivatives with the aim of achieving an investment gain, providing 60 days' notice is given to shareholders.</p> <p>Other Information:</p> <p>The S&P 500 index is currently used as a point of reference against which the Fund's overall performance may be compared over time</p>

CT Dynamic Real Return Fund	4 July 2022	Name Change: DynamicReal Return Fund	Name Change: CT DynamicReal Return Fund
	1 August 2019	<p>Investment objective and policy change:</p> <p>The investment objective of the Fund is to achieve a positive real rate of return from capital appreciation and income over the medium to long term, at least above the rate of inflation (defined as the Consumer Price Index). Regardless of market conditions, it also aims to provide a positive return over a maximum period of 3 years. There is a risk to capital, and there is no guarantee that such a return will be achieved in 3 years or any other timescale.</p> <p>The ACD's investment policy is to actively manage an exposure to fixed income, equities, cash, money market instruments, currencies, commodities, property and other alternative asset classes on a global basis. The ACD will vary the exposure between these asset classes as deemed necessary in order to achieve the investment objective, and this may result in the Fund having no exposure to particular asset classes.</p> <p>The ACD will invest in regulated and unregulated collective investment schemes, transferable securities, derivatives, forward transactions, cash, deposits and money market instruments. Investments in collective investment schemes may include those managed, operated or advised by the ACD, or a company in the same group as the ACD.</p> <p>The Fund may gain indirect exposure to commodities through, but not limited to, investment in collective investment schemes, securitised notes and/or financial derivative instruments. The ACD will not invest in physical commodities or directly in real property.</p>	<p>Investment objective and policy change:</p> <p>The Fund aims to achieve a higher rate of return from capital appreciation and income than the rate of inflation in the UK (defined as the Consumer Price Index (CPI)), over a period of 3 to 5 years. Currently, the Fund looks to achieve an average annual return of CPI +4% when measured over this same time period, before charges are deducted. The Fund also seeks to deliver a positive return over any 3-year period (net of charges), regardless of market conditions. However, there is a risk to capital, and there is no guarantee that a positive return will be achieved in 3 years, or any other timescale.</p> <p>The Fund actively manages an exposure to bonds, equities (company shares), money market instruments, cash, currencies, commodities, property and other alternative asset classes on a global basis. The exposure to these asset classes varies over time, as deemed necessary to achieve the investment objective, which may result in the Fund having little or no exposure to certain asset classes.</p> <p>The Fund obtains exposure to those different asset classes by investing in other collective investment schemes (including funds managed by Columbia Threadneedle companies) or by using derivatives (including forward transactions). The Fund may also invest directly in transferable securities (including bonds and company shares), money market instruments, deposits and cash. The Fund does not invest in physical commodities or directly in real property.</p> <p>In addition to using derivatives for investment purposes, derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.</p> <p>Other Information:</p> <p>Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to facilitate comparison between funds with broadly similar characteristics (peer groups). This Fund is currently included in the IA Targeted Absolute Return sector. Performance data on funds within this sector may be used when evaluating the performance of this Fund.</p>

		<p>The investment policy is to maximise exposure to socially beneficial activities and development, based on assessments produced under the fund's Social Assessment Methodology. The exposure and assessments are reviewed by the Social Advisory Committee. The fund may invest in all forms of trade-able debt instrument (primarily investment grade) issued by a supranational, public, private or voluntary and/or charitable sector organisation, including without limitation, bonds, notes, bills, and loans, whether they have a fixed, floating, variable, index-linked rate or have a zero coupon.</p> <p>Cash or near cash will be retained within the Fund for the purpose of efficient management, and similarly deposits and money market instruments may be held for this reason. The Fund may also use derivatives and forward transactions solely for the purpose of efficient portfolio management and hedging. Derivatives may also be used for investment purposes on not less than 60 days' notice to investors.</p>	<p>investment exposure to socially beneficial activities and development, based on assessments produced under the Fund's Social Assessment Methodology.</p> <p>The Social Assessment Methodology ensures that social impact considerations are integrated into the investment decision-making process. Investment is directed towards eight social outcome areas: housing and property; community services; education, learning and skills; employment and training; financial inclusion; health and social care; transport and communications infrastructure, utilities and the environment. Eligible Investments are assessed to establish an overall view of the investment's "social intensity". Some debt securities will have more direct and tangible social benefits than others, however all those selected for investment are considered to have net positive impacts.</p> <p>A Social Advisory Committee regularly reviews the Social Assessment Methodology and the assessments carried out and may propose amendments or updates over time. An annual report is made available to investors which provides a summary of the Fund's social impact performance.</p> <p>The Fund may invest in all forms of debt security (usually investment grade) issued by a supranational, public, private or voluntary and/or charitable sector organisation, including without limitation, bonds, notes, bills, and loans, whether they have a fixed, floating, variable, index-linked rate or have a zero coupon.</p> <p>Cash or near cash will be retained within the Fund for the purpose of efficient management, and similarly deposits and money market instruments may be held for this reason. The Fund may also use derivatives and forward transactions with the aim of reducing risk or managing the Fund more efficiently (including the hedging of any non-sterling denominated securities back to sterling). Derivatives may also be used for investment purposes, providing not less than 60 days' notice is given to shareholders.</p> <p>Other Information:</p> <p>The ICE BofAML 1-10 Year Sterling Non-Gilt Index is currently used as a point of reference against which the Fund's financial performance may be compared. The Index is regarded as an appropriate performance measure of British pound sterling-denominated investment grade bonds with a remaining maturity of between 1-10 years, issued by a broad range of corporations.</p>
	6 April 2017	N/A	<p>Introduction of reference index:</p> <p>BofA Merrill Lynch 1-10 Year Sterling Non- Gilt Index (UN05) Gross Total Return</p>
