<sup>#</sup> The ongoing charges figure is based on the total asset management fee and operating expenses in accordance with the interim financial statement for the 6-month period ended 7 September 2019 and is expressed as a percentage of the average net asset value of the share class over the same period. This figure may vary from year to year.

## What is this product?

Threadneedle Investment Funds ICVC – European Fund (the “Fund”) is a sub-fund of Threadneedle Investment Funds ICVC, an investment company (i.e. a mutual fund) with variable capital constituted in England and Wales. The home regulator of Threadneedle Investment Funds ICVC is the Financial Conduct Authority (“FCA”) in the UK.

## Objective and Investment Strategy

### Investment Objective

The Fund aims to achieve capital growth over the long term. It looks to outperform the FTSE World Europe ex UK Index over rolling 3-year periods, after the deduction of charges.

### Investment Policy

The Fund is actively managed and invests at least 75% of its assets in shares of companies domiciled in Continental Europe, or which have significant Continental European business operations.

The Fund selects companies considered to have good prospects for share price growth, from any industry or economic sector, and whilst there is no restriction on size, investment tends to focus on larger companies, such as those included in the FTSE World Europe ex UK Index.

The FTSE World Europe ex UK Index is regarded as providing an appropriate representation of the share performance of large and medium-sized companies across Europe (excluding the UK), currently with approximately 500 companies included. It provides a suitable target benchmark against which Fund performance will be measured and evaluated over time.

The Fund typically invests in fewer than 70 companies, which may include shares of some companies not within the Index. The Fund may invest in other securities (including fixed interest securities) and collective investment schemes (including funds managed by Columbia Threadneedle companies), when deemed appropriate.

The Fund may also hold money market instruments, deposits, cash and near cash.

The Fund is not permitted to invest in derivatives for investment purposes, but derivatives may be used with the aim of reducing risk or managing the Fund more efficiently.

## Use of derivatives/investment in derivatives

The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.

## What are the key risks?

**Investment involves risks. Please refer to the offering document for details including the risk factors.**

### Investment

There is no guarantee that the investment objective of the Fund can be achieved. The value of investments held by the Fund can fall as well as rise and investors might not get back the sum originally invested, especially if investments are not held for the long term.

### Volatility

The price of the Fund's investments may rise and fall sharply in the short-term and this may result in a higher volatility of the Fund's value.

### Equity Securities

The value of equity securities held by the Fund may be affected by various factors. A fall in their value will affect the price of the Fund.

### Currency

Where investments are made in assets that are denominated in multiple currencies, changes in exchange rates may affect the value of the investments.

### Investor Currency

Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.

### Geographical Concentration

The Fund's investments are concentrated in Europe. This may result in higher volatility than funds which comprise broad-based global investments.

### European Sovereign Crisis

The Fund mainly has investment exposure to Europe. In light of the current Eurozone crisis which may unfold in a number of ways, including but not limited to the downgrading of the credit ratings of European countries, the default or bankruptcy of one or more sovereigns within the Eurozone, the departure of some, or all, relevant EU Member States from the Eurozone and the break-up of the Eurozone, the Fund may be subject to a number of increased risks (such as volatility, liquidity and currency risks). This may adversely impact the performance and value of the Fund.

### Hedge/Basis

The use of financial derivative instruments for hedging and/or efficient portfolio management purposes may become ineffective in adverse situations or if the ACD or the Investment Manager employs a strategy that does not correlate well with the Fund's investments. This may result in a significant loss to the Fund.

## How has the Fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the share class increased or decreased in value during the calendar year being shown. Performance data has been calculated in Euro including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- Fund launch date: 26 August 1997.
- Class 1 accumulation (Euro) launch date: 26 August 1997.

- The Fund Manager views Class 1 accumulation (Euro) shares, being the retail share class denominated in the Fund's primary investment currency, as the most appropriate representative share class.
- The benchmark of the Fund is FTSE World Europe ex UK Index. Please refer to the offering document for further information relating to the benchmark.

### Is there any guarantee?

This Fund does not have any guarantees. You may not get back the full amount of money you invest.

### What are the fees and charges?

#### Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

Fee	What you pay
<b>Subscription Fee (Initial Charge)</b>	Class 1: Up to 5.00% of the gross amount invested
<b>Switching Fee and Conversion Fee</b>	Switching into shares of another fund. For the avoidance of doubt you are only permitted to switch into a fund which is authorised in Hong Kong by the SFC: Up to the prevailing initial charge for the class of shares acquired Conversion into another class within the Fund: Nil
<b>Redemption Fee (Redemption Charge)</b>	Nil

#### Ongoing fees payable by the Fund

The following expenses will be paid out of the Fund. They affect you because they reduce the return you get on your investments.

	Annual rate
<b>Management fee* (Management charge)</b>	Class 1: 1.5% of the net asset value
<b>Custodian fee</b>	Depending on the country in which the assets are held, up to 0.44% of the assets held by the Custodian
<b>Performance fee</b>	Not applicable
<b>Administration fee* (Ongoing registration and general expenses payable to the ACD)</b>	Class 1: 0.11% of the net asset value
<b>Depositary fee*</b>	0.01% of the net asset value

\* These fees may be increased by giving at least 60 days' notice to affected shareholders in accordance with FCA Rules.

#### Other fees

You may have to pay other fees when dealing in the shares of the Fund.

### Additional Information

- You generally buy and redeem shares at the Fund's next-determined net asset value after the ACD receives your request in good order before 12 noon (UK time) on each dealing day. The Hong Kong Representative/your distributor may impose different deadlines for receiving requests from investors. Please check with your distributor regarding its internal dealing cut-off time.
- The net asset value of this Fund is calculated on each business day in England and Wales and the price of shares is published daily on the website [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com)<sup>1</sup>.
- You may obtain the past performance information of other shares offered to Hong Kong investors from [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com)<sup>1</sup>.
