

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## COLUMBIA THREADNEEDLE (LUX) - SUSTAINABLE OUTCOMES GLOBAL EQUITY (THE "FUND")

Class IE (EUR Accumulation Shares) LU2282710552, a sub-fund of Columbia Threadneedle (Lux) (the "SICAV"), regulated by the CSSF.

The management company of the SICAV is Threadneedle Management Luxembourg S.A. (the "Management Company") (part of the Columbia and Threadneedle group of companies).

### Objectives and Investment Policy

The aim of the Fund is to grow the value of your investment over the long term by investing in companies that are positively exposed to sustainable outcome themes through their products and services, and display strong or improving environmental, social and governance (ESG) practices.

It looks to outperform the MSCI AC World Index over rolling 5 year periods, after the deduction of charges, and to ensure that its ESG profile and exposure to sustainable outcome themes exceeds that of the index.

The Fund invests a minimum of 90% of its assets in shares of companies worldwide, including shares of companies in emerging markets which may represent a core part of the Fund's investments.

The Fund may also hold money market instruments, cash, other funds and instruments different from those stated above.

The fund manager focusses on selecting companies delivering or progressing towards the delivery of sustainable outcomes, as outlined in the Fund's Sustainable Outcomes Investment Guidelines. Those companies will offer products and services aligned to the Fund's sustainable outcome themes and demonstrate strong or improving ESG practices. The fund manager also aims to exclude companies that are unable to satisfy those guidelines.

The Fund is actively managed in reference to the MSCI AC World Index. The index is broadly representative of the companies in which the Fund invests and provides a suitable target index against which Fund performance will be measured and evaluated over time. The index is not designed to specifically consider ESG characteristics. The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.

Deviations from the index, including guidelines on the level of risk relative to the index, will be considered as part of the fund manager's risk monitoring process. In line with its Sustainable Outcomes Investment Guidelines, the Fund may not invest in some sectors and companies in the index.

The Fund is categorised as one that promotes environmental or social characteristics under EU Regulation 2019/2088 on sustainability-related disclosures in the financial services sector (SFDR), and does not have a "sustainable investment" objective as defined by SFDR.

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. Such days are published on [columbiathreadneedle.com](http://columbiathreadneedle.com). You can find more detail on the investment objective and policy of the Fund in the section of the prospectus with the heading "Fund Descriptions".

### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards

Higher Risk, Typically higher rewards

- The Fund is rated 6 because funds of its type typically show high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund has a concentrated portfolio (holds a limited number of investments and/or has a restricted investment universe) and if one or more of these investments declines or is otherwise affected, it may have a pronounced effect on the Fund's value.
- The Fund invests in markets where economic and regulatory risk can be significant. These factors can affect liquidity, settlement and asset values. Any such event can have a negative effect on the value of your investment.
- The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- The Fund aims to invest in companies which deliver sustainable outcomes and in doing so adheres to a set of Sustainable Outcomes Investment Guidelines. The Guidelines will affect the Fund's exposure to certain sectors, which may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the fund over a year

Ongoing Charges:	0.80%
------------------	-------

### Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure shown here is an estimate of the charges because the share/unit class is relatively new and has insufficient track record for us to calculate it exactly. The UCITS' annual report for each financial year will include detail on the exact charges made.

## Past Performance
